Hiring Manager
ABC Technologies Sdn. Bhd.
Johor Bahru, Johor

Dear Hiring Manager,

I am writing to apply for the Software Engineer position at ABC Technologies Sdn. Bhd. I am currently pursuing a Diploma in Information Technology at Raffles University with a **CGPA of 3.87**, and I am passionate about developing software that solves real-world problems through innovation and technology.

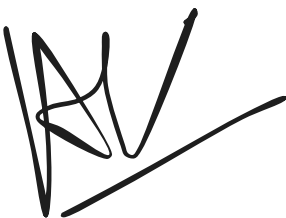

During my studies, I have built practical projects that strengthened my technical skills in software development, mobile applications, web development, UI/UX design, and IoT. My Final Year Project, MediSync, combines Flutter, ESP32, AI, and cloud technologies to develop a smart medication reminder system. I have also developed StoryHub, a collaborative storytelling web platform, designed a Smart Home Automation system using ESP32, and redesigned the AirAsia MOVE mobile application to improve its user experience.

Beyond academics, I have consistently maintained strong academic performance, achieving a **CGPA of 3.87, earning a 4.00 GPA in three semesters**, and completing multiple software and IoT projects. These experiences have strengthened my problem-solving, teamwork, communication, and adaptability—qualities that I believe are essential for a software engineer.

I am eager to contribute my technical knowledge, creativity, and willingness to learn while gaining valuable industry experience with your team. I would greatly appreciate the opportunity to discuss how my skills and enthusiasm can contribute to your organization.

Thank you for your time and consideration. I look forward to hearing from you.

Yours faithfully,
